

The Eminent Emandal Emulation of 2020!

We've chosen ***Emandal Emulation*** so that you may use all your creative energy to come up with a photo that **must include** at least one flower grown from seeds we send, but that will incorporate any of all that Emandal is to you..... friends, family, pizza, bubbles, ball-games, swimming, rocks, hammocks, tomatoes, sunshine, oak trees, green grass, worms, ping pong, books, games, camp fires, musical instruments, coffee, dancing, poetry, etc. etc. etc.

With technology today, I'm sure we'll be able to post all the photos online.... and possibly figure out a way everyone can vote on particular photos. We're offering jam, hats, sweats, t-shirts, for prizes..... We'll suggest some potential categories, but leave some open, since I know you will come up with some that I would never, ever think of!

Send photos to: tamara@emandal.com by September 15, 2020. We'll put as many as we can online, and somehow figure out a way to let everyone judge.

Each packet of flowers contains seeds for plants that encourage butterflies, birds, beneficial insects. There are herb seeds, too. All are annuals that generally like sun, or mostly sun. Some are huge, some are tiny.... most are colorful. Have Fun!
